

# Remote controlled home alarm

Component : K8093

Magnetic door contact included

**Compatible remotes: not included**

- VM130T: 2-channel RF remote control transmitter

VM166T: 2-channel transmitter with LED light

## Features

- can store up to 4 remote controls (FIFO)
- chime function
- built-in pre-alarm
- always armed after power outage
- the built-in relay can switch a siren (not included) (3 A 125 VAC) after 20 s pre-alarm
- arm time:
  - slow with indication (if the door is open or closed time to leave the room)
  - quickly

## Specifications

- power supply: 12V DC
  - consumption:
    - armed: 20 mA
- alarm relay powered: 50 mA
  - relay: 3 A - 125 VAC
- frequency: 433.92 MHz
- 32-bit code technology
- more than 1.000.000.000 unique codes
- code can easily be changed for safety purposes
- transmitter: R&TTE compliant (ETS 300-220) \*
  - open field range of up to 30 m possible
    - external antenna wire
- receiver dimensions: 108 x 102 x 45 mm / 4.25 x 4 x 1.77"

\* ETS 300 -220: only for EU countries
